Dear Mr. Jablon:

The following comments are furnished in regard to the plat submitted to this office for review by the Zoning Advisory Committee in connection with the subject item.

General:

Baltimore County highway and utility improvements are not directly involved and are as secured by Public Works Agreement 87206, executed in conjunction with the development of Knollcrest Manor, of which this property is a part.

Development of this property through striping, grading and stabilization could result in a sediment pollution problem, damaging private and public holdings downstream of the property. A grading permit is, therefore, necessary for all grading, including the striping of top soil.

The Petitioner must provide necessary drainage facilities (temporary or permanent) to prevent creating any nuisances or damages to adjacent properties, especially by the concentration of surface waters. Correction of any problem which may result, due to improper grading or improper installation of drainage facilities, would be the full responsibility of the Petitioner.

This office has no further comment in regard to the plan submitted for Zoning Advisory Committee review in connection with this Item #242 (1983-1984).

Very truly yours,

- whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- whether the grant would do substantial injustice to applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give substantial relief; and
- whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

It is clear from the testimony that if the variances were granted, such use as proposed would not be contrary to the spirit of the BCZR and would not result in substantial detriment to the public good.

After due consideration of the testimony and evidence presented, it is clear that a practical difficulty or unreasonable hardship would result if the instant variances were not granted. It has been established that the requirement the Petitioners seek relief from here would unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the variances requested will not be detrimental to the public health, safety, and general welfare.

Pursuant to the advertisement, posting of the property, and public hearing on this Petition held, and for the reasons given above, the variances requested should be granted.

Therefore, IT IS ORDERED by the Zoning Commissioner of Baltimore County, this 10th day of May, 1984, that the Petition for Variances to permit a side yard setback of 40 feet instead of the required 50 feet to the eastern property line and a setback of 65 feet to the centerline of Knollcrest Road instead of the required 75 feet be and is hereby GRANTED, from and after the date of this Order, subject, however, to the following restrictions:

- Prior to issuance of a building permit, a revised site plan showing the 10,000 square foot septic reserve

area must be submitted to and approved by the Bureau of Environmental Services, Department of Health.

- Upon approval, the Petitioners may be issued their building permit; however, they are hereby made aware that proceeding at this time is at their own risk until such time as the applicable appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioners would be required to return, and be responsible for returning, said property to its original condition.

Acreage: 146.60/150.00 X 246.59/264.11
District: 8th

Dear Mr. Jablon:

The following comments are furnished in regard to the plat submitted to this office for review by the Zoning Advisory Committee in connection with the subject item.

General:

Baltimore County highway and utility improvements are not directly involved and are as secured by Public Works Agreement 87206, executed in conjunction with the development of Knollcrest Manor, of which this property is a part.

Development of this property through stripping, grading and stabilization could result in a sediment pollution problem, damaging private and public holdings downstream of the property. A grading permit is, therefore, necessary for all grading, including the stripping of top soil.

The Petitioner must provide necessary drainage facilities (temporary or permanent) to prevent creating any nuisances or damages to adjacent properties, especially by the concentration of surface waters. Correction of any problem, which may result, due to improper grading or improper installation of drainage facilities, would be the full responsibility of the petitioner.

This office has no further comment in regard to the plan submitted for Zoning Advisory Committee review in connection with this Item #242 (1983-1984).

Very truly yours,

Robert A. Morton, F.E., Chief
